PROFILE

I am a recent HyperionDev Software Engineering graduate. I possess strong analytical and problem solving skills with the ability to quickly learn and adapt to new technologies with Python development. Furthermore, I'm seeking for an opportunity to work as a Python Software Developer and utilize my technical skills to contribute to the success of the organization.

WORK EXPERIENCE

Screening Officer

01/2021 - 06/2022

City Of Matlosana Municipality

Klerksdorp

I was appointed as a screening officer for City of Matlosana Municipality. I was placed at the Orkney fire station to ensure that nobody enters the facility without being tested for their temperature to reduce the risk of fire officers from getting COVID-19.

- Attending Health and Safety Committee meetings.
- Identifying hazards and abnormal temperature risks of visitors before entering the workplace.
- Assisting with additional activities that occur in the workplace.
- Making OHS-related suggestions to senior management and/or the Health and Safety supervisor.

Staff Bus Driver

04/2019 - 07/2019

North Reef Mining Group

Klerksdorp

I was responsible for transporting ensuring that the mine workers were collected from their homes or from the base to the sites which they were appointed to and to transport new recruits for their medical and induction.

- Perform beginning-shift vehicle inspections before departure.
- Safely transport goods and passengers.
- Report all mechanical issues to service manager immediately.
- Obey all traffic laws.
- Maintain a clean and sanitary vehicle at all times.

EDUCATION

Software Engineering Bootcamp

10/2022 - 04/2023

HyperionDev

- During the bootcamp I was immersed into the world of software engineering and learnt various programming languages including Python.
- Throughout the bootcamp I acquired hands-on experience by working on real-world projects such as consol which is a Django Framework project in my GitHub repository, mini-games using Python Language and my portfolio site using HTML & CSS with a bit of JavaScript.

Firefighter

02/2020 - 10/2020

Impact Emergency Technologies

- Learnt effective leadership skills that focused on fostering a positive and collaborative environment.
- First aid training which has equipped me with the knowledge and skills to provide initial care in an emergency.
- Mechanical skills in ways of designing, repairing and operating machines and systems.
- Learnt attention to detail skills, which taught me the ability to thoroughly and accurately observe, review, and scrutinize information, tasks, or situations. This has taught me to be meticulous, focused, and mindful of even the smallest details.

CERTIFICATION

Software Engineering Bootcamp

HyperionDev

Firefighter 1

Impact Emergency Technologies

Firefighter 2

Impact Emergency Technologies

Hazardous Materials Operational Level NFPA 1072

Impact Emergency Technologies

Hazardous Materials Awareness Level (NFPA 1072)

Impact Emergency Technologies

SKILLS

Python · Django · SQL/Lite · HTML & CSS ·

NLP · Git · Docker

SOFT SKILLS

Good communication skills ·

Working in teams · Time Management ·

Problem solving · Emotional intelligence ·

Leadership skills

PROJECTS

Mini project

Orkney

I coded a few games, whereby one is a quiz and the others are user vs computer game and at the end the user receives results on how they performed, the final one as a digital clock.

- Quiz game.
- Random number game (Guessing game).
- Rock, Paper, Scissors game.
- Digital clock

LetlhogonoloMarametsi/mini-projects: this repo consists out of 5 mini projects (github.com)
